-01:12:29 <"Israel - two years of freedom - as Israel celebrates its second
01:13:28 anniversary of independence, Telenews reviews the history of the
-01:14:00 young nation: March 1948: to Jewish internees at Cyprus, the
future looked bleak indeed. The United Nations Special Assembly
on Palestine, immobilized by British refusal to act, added to the
general depression in the Holy Land. In Jerusalem, bloodshed
continued between Arabs and Jews, and Abdullah marched
triumphantly through the streets of the old city. But in May, the
Jewish state proclaimed its independence. Around the world the
Jewish people rejoiced. America sent an Ambassador to the new
land and the first eager immigrants arrived. Telenews brings the
story up to date with scenes of rejoicing and sorrow in the Holy
Land today."> (April 30, 1950) (N) Newsreels:
